

TAMER'S BOND

FRONTIER

Season 4 Module

Legendary Warriors of the Ancient Digital World

Frontier

Season 4 Module

Playtest Draft v0.1

About This Book

Frontier is the fourth season module for Tamer's Bond. It introduces five new class trees for the Legendary Warriors, the Spirit Tamer optional rule for players who want to become the Digimon themselves, and a full item compendium built around the world of the Frontier DigiDestined.

This module stands alone. No other season module is required to use this book.

What

's Inside Part 1: Classes — Five class trees for the Frontier cast: Takuya, Koji, Zoe, JP, and Tommy. Part 2: Rules — The Spirit Tamer optional rule, covering players who transform into Digimon themselves rather than partnering with one. Part 3: Items — The full Season 4 item compendium including the D-Scanner Digivice, Legendary Spirits, gear, supplies, and food.

Familiarity with the Tamer's Bond Core Rulebook is assumed throughout. Core item rules, stat rules, and combat rules are not repeated here.

PART 1

Classes

About Season 4 Classes

Frontier introduces five class trees inspired by the Legendary Warriors. These classes stand alone — no other season module is required.

Koichi's two class trees — Duskmon and Löwemon — are included in this book. Both trees are available to any Tamer who meets the requirements. A Tamer may hold abilities from both trees simultaneously.

Class Rules at a Glance

Any Tamer can take any class if they meet the requirements. EXP spent on classes comes from the same pool as stats and skills — every purchase is a real tradeoff. You may hold abilities from multiple class trees simultaneously. Lower rows have higher requirements. You must purchase at least one ability in a row before accessing the next. All EXP costs and requirements are playtest values — subject to change.

Takuya — Crest of Courage

The one who jumps before he looks. Takuya Tamers do not wait for the perfect moment — they make the moment by moving first. Reckless, loud, and completely unwilling to accept that something cannot be done. Their partner hits harder when the odds are against them. That is not a flaw in the plan. That is the plan.

Entry Requirement

To unlock the first row: Courage rank 3

— Row 1 —

First to Move

300 EXP Requires: Entry requirement met* At the start of each encounter your partner Digimon may immediately move up to 2 spaces before the first turn begins. This movement does not cost an action. Takuya does not wait for the signal. He is already moving.

— or —

I Can Take It

300 EXP Requires: Entry requirement met* Once per encounter when your partner Digimon takes damage that would reduce them below half their maximum HP for their current stage, they gain temporary HP equal to your Courage rank. Getting hit just makes them angrier.

— Row 2 —

Burning Will

500 EXP Requires: At least 1 Row 1 ability, Courage rank 4* Once per encounter when your partner Digimon's attack misses, their next attack roll this turn gains +3. Takuya does not accept a miss. He just swings harder.

— or —

Against the Odds

500 EXP Requires: At least 1 Row 1 ability, Courage rank 4* Your partner Digimon deals +2 damage on all attacks while they are below half their maximum HP. The worse things get the more dangerous they become.

— Row 3 —

Blaze of Glory

700 EXP Requires: Burning Will, Courage rank 5* Once per session when your partner Digimon would be reduced to 0 HP, you may spend 8 Hope to keep them at 1 HP instead. They do not cascade. They do not dedigivolve. They do not go down. Not yet. Not like this.

— or —

Push Through

700 EXP Requires: Against the Odds, Courage rank 5* Once per encounter at the start of your turn, if your partner Digimon took damage last round, they may immediately move up to 2 spaces as a Free Action. Pain does not stop them. It redirects them.

— Row 4 —

Unified Flame

1000 EXP Requires: Both Row 3 abilities, Courage rank 7* Once per session at the start of your turn you may declare Unified Flame. For the rest of this encounter your partner Digimon deals +3 damage on all attacks and cannot be reduced below 1 HP by any single hit — if they are at 1 HP and take any further damage, that damage applies normally. Additionally at the start of each of your turns, if your partner Digimon's HP is below 5, it is immediately restored to 5. This lasts until the end of the encounter or until your Hope hits 0. When Takuya decides the fight is not over, it is not over.

Koji — Crest of Reliability

The one who did not need anyone — and learned that was not strength. Koji Tamers are precise, composed, and completely in control of every variable they can reach. Their partner does not fight with passion. They fight with inevitability. Every move is correct before it is made.

Entry Requirement

To unlock the first row: Reliability rank 3

— Row 1 —

Precision Shot

300 EXP Requires: Entry requirement met* Once per encounter before your partner Digimon makes an attack roll, you may add your Reliability rank to the roll. Koji does not guess. He knows.

— or —

Stand Alone

300 EXP Requires: Entry requirement met* When your partner Digimon is the only allied Digimon currently on the field, they gain +2 to all defensive checks. Koji spent a long time operating without backup. His partner learned the same discipline.

— Row 2 —

Precise Form

500 EXP Requires: At least 1 Row 1 ability, Reliability rank 4* Once per encounter your partner Digimon may reroll one attack roll and take the higher result. There is a correct angle for every strike. Koji finds it.

— or —

Exposed Weakness

500 EXP Requires: At least 1 Row 1 ability, Reliability rank 4* Once per encounter as a Free Action, name one enemy Digimon. Until the end of this round your partner Digimon's attacks against that target ignore 2 points of damage reduction. Koji watches before he moves. When he moves, he has already won.

— Row 3 —

Lone Wolf Stance

700 EXP Requires: Precise Form, Reliability rank 5* Once per encounter at the start of your turn, you may declare Lone Wolf Stance. Until the start of your next turn your partner Digimon cannot be targeted by status effects. They are too precise to be caught off guard.

— or —

The Right Move

700 EXP Requires: Exposed Weakness, Reliability rank 5* Once per session after your partner Digimon's attack hits, you may deal maximum damage instead of rolling. No variance. No luck. Just the correct result.

— Row 4 —

Twin Souls

1000 EXP Requires: Both Row 3 abilities, Reliability rank 7* Once per session at the start of your turn you may activate Twin Souls. For the rest of this encounter your partner Digimon gains +3 to all attack rolls and all damage rolls. Additionally when they would take damage you may spend 3 Hope to reduce it by your Reliability rank. Koji learned that strength is not about standing alone. Twin Souls is what happens when he finally stops.

Zoe — Crest of Sincerity

The one who said exactly what she meant and dared you to have a problem with it. Zoe Tamers do not soften their edges. They fight with full commitment — no hesitation, no half measures. Their partner hits cleanly and stands tall when others would flinch.

Entry Requirement

To unlock the first row: Sincerity rank 3

— Row 1 —**Unyielding**

300 EXP Requires: Entry requirement met* Once per encounter when your partner Digimon takes damage, they may immediately move up to 2 spaces as a Free Action. Zoe does not stand still and absorb it. She repositions and comes back harder.

— or —

Honest Threat

300 EXP Requires: Entry requirement met* Once per encounter as a Free Action, choose one enemy Digimon within 4 spaces of your partner. That enemy takes -2 to their next attack roll. Zoe has never needed to be subtle about what she thinks of you.

— Row 2 —**Stand Your Ground**

500 EXP Requires: At least 1 Row 1 ability, Sincerity rank 4* Once per encounter when your partner Digimon is pushed, knocked back, or forcibly moved by an enemy ability, you may negate the movement entirely. They do not move unless they choose to.

— or —

Raw Edge

500 EXP Requires: At least 1 Row 1 ability, Sincerity rank 4* Once per encounter your partner Digimon may make one additional attack as a Free Action at the end of their turn. This attack deals half damage. Zoe does not wait to be given an opening. She makes one.

— Row 3 —

Speak Plainly

700 EXP Requires: Stand Your Ground, Sincerity rank 5* Once per session at the start of an encounter, choose one ally. For this encounter that ally's partner Digimon gains +2 to all attack rolls. Zoe does not give speeches. She just tells people the truth about what they are capable of.

— or —

Full Commitment

700 EXP Requires: Raw Edge, Sincerity rank 5* Once per encounter when your partner Digimon uses a move with the CHARGE tag, they deal +4 damage on that attack. No wind-up. No second-guessing. All of it.

— Row 4 —

Absolute Honesty

1000 EXP Requires: Both Row 3 abilities, Sincerity rank 7* Once per session at the start of your turn you may activate Absolute Honesty by spending Hope equal to your Sincerity rank. Until the end of this encounter your partner Digimon cannot miss — every attack roll is treated as a hit regardless of the result. A natural 1 deals no damage but the attack still connects, all status effects apply as if it were a hit, and any abilities that trigger on a hit trigger normally. Zoe decided a long time ago that she was not going to pretend to be less than she is. Neither is her partner.

JP — Crest of Friendship

The one who wanted to belong so badly he almost forgot he already did. JP Tamers fight loudest for the people next to them. Their partner hits harder when allies are close, holds longer when the group needs time, and never leaves anyone behind.

Entry Requirement

To unlock the first row: Friendship rank 3

— Row 1 —

Backup Plan

300 EXP Requires: Entry requirement met* Once per encounter when an allied Digimon within 3 spaces takes damage, your partner Digimon gains +2 to their next attack roll. JP always noticed when someone needed help. His partner notices too.

— or —

Crowd Presence

300 EXP Requires: Entry requirement met* Your partner Digimon gains +1 to all attack rolls for each allied Digimon currently on the field, up to a maximum of +3. JP does better when he has an audience. So does his partner.

— Row 2 —

Shield the Pack

500 EXP Requires: At least 1 Row 1 ability, Friendship rank 4* Once per encounter when an allied Digimon within 2 spaces would take damage, your partner Digimon may take that damage instead. JP has always been willing to absorb a hit for someone else.

— or —

Group Momentum

500 EXP Requires: At least 1 Row 1 ability, Friendship rank 4* Once per encounter at the start of your turn, if at least two allied Digimon acted last round, your partner Digimon gains temporary HP equal to your Friendship rank. Everyone moving together creates something.

— Row 3 —

Thunder Formation

700 EXP Requires: Shield the Pack, Friendship rank 5* Once per encounter as a Basic Action, choose one allied Digimon within 3 spaces. Until the start of your next turn that Digimon gains +3 to their damage resistance. JP may not always be the strongest. He is always the one making sure everyone else holds.

— or —

Never Alone

700 EXP Requires: Group Momentum, Friendship rank 5* Once per session when your partner Digimon would trigger the defeat cascade, you may spend 6 Hope to prevent it if there is at least one other allied Digimon still on the field. The group is still here. That means JP is still here.

— Row 4 —

For Everyone

1000 EXP Requires: Both Row 3 abilities, Friendship rank 7* Once per session at the start of an encounter, all allied Digimon and Tamers on the field — including yourself — gain temporary HP equal to your Friendship rank x3. JP spent a long time trying to prove he belonged. This is what it looks like when he stops trying and just acts.

Tommy — Crest of Love

The youngest one. The one everyone tried to protect until he decided he was done being protected. Tommy Tamers start careful and become something else entirely. Their partner grows stronger the longer the fight goes, and hits hardest when someone else needed them to.

Entry Requirement

To unlock the first row: Love rank 3

— Row 1 —

Looked After

300 EXP Requires: Entry requirement met* At the start of each encounter your partner Digimon gains temporary HP equal to your Love rank. Tommy always had people watching out for him. He learned to carry that.

— or —

Quiet Determination

300 EXP Requires: Entry requirement met* Once per encounter when your partner Digimon takes damage, they gain +1 to all attack rolls for the rest of this round. It stacks up to +3. Tommy does not get loud when things get hard. He gets focused.

— Row 2 —

I Can Do This

500 EXP Requires: At least 1 Row 1 ability, Love rank 4* Once per encounter when your partner Digimon's HP drops below half their maximum for their current stage, they gain +2 to all damage rolls for the rest of the encounter. Tommy stopped needing to be rescued somewhere along the way.

— or —

Protect Them Back

500 EXP Requires: At least 1 Row 1 ability, Love rank 4* Once per encounter when an enemy Digimon adjacent to your partner Digimon initiates a grapple against an allied Digimon, you may force that grapple to target your partner Digimon instead. Someone looked out for Tommy his whole life. He has not forgotten that.

— Row 3 —

Growing Up

700 EXP Requires: I Can Do This, Looked After, Love rank 5* Once per session at the start of an encounter, your partner Digimon's temporary HP from Looked After is doubled. Tommy is not the same kid who got on that Trailmon.

— or —

Steady Resolve

700 EXP Requires: Protect Them Back, Love rank 5* Once per encounter when your partner Digimon is targeted by a grapple, your partner Digimon gains +3 to their grapple resistance check. Tommy has been grabbed by things bigger than him before. He learned how to get out.

— Row 4 —

Not a Kid Anymore

1000 EXP Requires: Both Row 3 abilities, Love rank 7* Once per session as a Free Action on your turn, you may spend any amount of your own HP — leaving yourself at a minimum of 1 HP — to grant that same amount as temporary HP to yourself, your partner Digimon, and all allied Digimon currently on the field. Tommy needed people once. He still does. But now he gives back just as much as he receives.

Duskmon — Crest of Knowledge

The one who hunted without knowing why. Duskmon Tamers are terrifying to face and isolating to be around. Their partner does not fight alongside the group — it dismantles enemies piece by piece from the outside. Every weakness found is a door kicked open. Every kill is a step toward something the Tamer cannot yet name.

Entry Requirement

To unlock the first row: Knowledge rank 3

— Row 1 —

Mark the Target

300 EXP Requires: Entry requirement met* Once per encounter as a Free Action, designate one enemy Digimon as Marked. While Marked, that enemy takes -2 to all attack rolls. Only one enemy can be Marked at a time. Switching the Mark costs your Free Action. Duskmon does not fight everything. He finds the one thing worth destroying and focuses completely.

— or —

Predator

's Patience 300 EXP Requires: Entry requirement met* Once per encounter if your partner Digimon does not attack on their turn, they gain +4 to their next attack roll on their following turn. Standing still is not hesitation. It is preparation.

— Row 2 —

Tear Apart

500 EXP Requires: Mark the Target, Knowledge rank 4* When your partner Digimon hits a Marked enemy, that enemy loses 1 point of damage resistance until the end of the encounter. This stacks — each hit reduces their resistance by 1 more. The armour comes off one layer at a time.

— or —

Eyes Everywhere

500 EXP Requires: At least 1 Row 1 ability, Knowledge rank 4* Once per encounter as a Free Action, you may learn the current HP total of any one visible enemy. Additionally your partner Digimon deals +2 damage to any enemy currently below half their maximum HP. Duskmon always knows exactly how close something is to breaking.

— Row 3 —

Relentless

700 EXP Requires: Tear Apart, Knowledge rank 5* Your partner Digimon's attacks against a Marked enemy cannot be interrupted or redirected — abilities that would force your partner to retarget or miss their Marked enemy automatically fail against them. Once Duskmon decides something is going to die, nothing changes that.

— or —

Isolate

700 EXP Requires: Eyes Everywhere, Knowledge rank 5* Once per encounter as a Basic Action, choose one enemy Digimon. Until the end of the round that enemy cannot be healed, cannot receive buffs, and cannot benefit from any ally's protective abilities. Completely alone for one round. Duskmon did not know what that felt like. He made others feel it instead.

— Row 4 —

The Dark Warrior

1000 EXP Requires: Both Row 3 abilities, Knowledge rank 7* Once per session at the start of your turn you may declare The Dark Warrior. Mark up to two enemies simultaneously for the rest of this encounter — both are Marked at once, costs and effects apply to both. Additionally while The Dark Warrior is active your partner Digimon deals +3 damage on all attacks against Marked enemies. This lasts until the end of the encounter or until both Marked enemies are defeated.

Löwemon — Crest of Sincerity

The one who came back. Löwemon Tamers carry something Duskmon never had — the knowledge of what they almost became, and the choice they made instead. Their partner fights with a protective precision that was forged in darkness and refined by grief. Everything Duskmon took apart, Löwemon learns to hold together.

Entry Requirement

To unlock the first row: Sincerity rank 3 AND Knowledge rank 3 *A Tamer who has also unlocked Duskmon's tree may purchase Löwemon Row 1 abilities at 50 EXP discount each, representing the hard-won understanding that comes from walking both paths.*

— Row 1 —

Shadow

's Guard 300 EXP Requires: Entry requirement met* Once per encounter when an allied Digimon adjacent to your partner Digimon is targeted by an attack, your partner Digimon may use their Free Action to step in front of the attack. Your partner takes the hit instead. This triggers before the attack roll — the attacker must roll against your partner's stats, not the original target's. Koichi spent too long being the reason people got hurt. Now he stands between them and it.

— or —

Purified Edge

300 EXP Requires: Entry requirement met* Once per encounter your partner Digimon may apply a Weaken status to one enemy on a successful hit — the target takes -2 to their next attack roll. The darkness did not disappear. It just stopped being aimed at the wrong things.

— Row 2 —

Weight of What Was

500 EXP Requires: Shadow's Guard, Sincerity rank 4* When your partner Digimon uses Shadow's Guard and takes the hit on behalf of an ally, they deal +4 damage on their next attack this encounter. The pain becomes fuel. Koichi learned to convert what he carries into something that protects.

— or —

Still Standing

500 EXP Requires: At least 1 Row 1 ability, Sincerity rank 4* Once per encounter at the end of any round in which your partner Digimon took damage, they may immediately move up to 2 spaces as a Free Action. Being hit does not stop them. It tells them where the threat is.

— Row 3 —

Brother

's Watch 700 EXP Requires: Weight of What Was, Sincerity rank 5* Once per session when an allied Tamer is reduced to 0 HP, your partner Digimon immediately gains +3 to all attack and damage rolls for the rest of the encounter. The bonus does not require an action to activate — it triggers the moment the Tamer falls. Koichi knows what it costs to lose someone to the dark. He will not let it happen again.

— or —

Light Left Behind

700 EXP Requires: Still Standing, Sincerity rank 5* Once per encounter as a Basic Action, choose one allied Digimon. Remove all negative status effects from them. Additionally that Digimon gains +2 to all attack rolls until the end of the round. Koichi carried enough darkness for everyone. When he finally put it down he found there was light underneath it.

— Row 4 —

The Other Side

1000 EXP Requires: Both Row 3 abilities, Sincerity rank 7* Once per session at the start of your turn you may declare The Other Side. For the rest of this encounter your partner Digimon gains the following: when they take damage on behalf of an ally using Shadow's Guard, they take only half that damage. When they defeat an enemy, the nearest allied Digimon restores HP equal to your Sincerity rank. When your Hope hits 0, this ability ends but your partner Digimon stays at their current stage for 1 additional round before reverting.

PART 2

Rules

Spirit Tamer

An optional rule for players who want to become the Digimon.

What This Rule Does

Normally a Tamer fights alongside a partner Digimon. The Spirit Tamer rule replaces that partner entirely — the Tamer becomes the Digimon themselves. This is a self-contained opt-in system. Other players at the table are completely unaffected. A GM can enable Spirit Tamer for one player without changing anything about how the rest of the game works.

The Rules

A Spirit Tamer has no partner Digimon. Instead, the Tamer is the Digimon. They have a single turn in combat — there is no separate Tamer turn and no separate Tamer action economy.

A Spirit Tamer has a move list at each stage, exactly like a partner Digimon. They digivolve, maintain Hope, and follow all standard digivolution rules unless stated otherwise below.

Forms

A Spirit Tamer has exactly one Fresh form, one In-Training form, and one Rookie form. They may never gain additional forms at these stages.

Champion and higher forms are unlocked through EXP using the same rules as standard partner Digimon.

EXP

A Spirit Tamer's EXP pool is still divided between Tamer and Digimon as normal. The two forms are treated as separate entities sharing the same person.

Default Stage

A Spirit Tamer's Default Stage starts at Rookie and advances through class progression exactly like a partner Digimon. Default Stage and Max Default Stage are always the same value — no rule, ability, or item can cause

Max Default Stage to exceed Default Stage.

Encounter Start

At the start of an encounter a Spirit Tamer may digivolve once before the first turn begins. All normal Hope costs and digivolution rules apply — only the action cost is waived.

The 0 Hope Rule

When a Spirit Tamer's Default Stage is Champion or higher, digivolving to that stage costs 0 Hope. They must still spend the turn digivolving.

Shared Move Pool

The Tamer and their Digimon form share a single move pool. The Tamer may use any move their Rookie form knows. The Digimon may use any move the Tamer knows. Normal move pool size rules apply to both separately.

Partner	None. The Tamer is the Digimon.
Starting stage	Rookie. The Tamer digivolves into Champion and higher from there.
Forms	One fixed Fresh, In-Training, Rookie. Champion+ unlocked via EXP.
Default Stage	Starts at Rookie. Advances normally. Max Default Stage = Default Stage always.
Turn structure	Single turn. No separate Tamer turn.
EXP	Still split between Tamer and Digimon as normal.
Encounter start	May digivolve once for free (action cost only waived).
0 Hope rule	Digivolving to Default Stage costs 0 Hope — but still costs a turn.
Move pool	Tamer and Digimon share one pool. Normal size rules apply separately.
Other players	Completely unaffected.

This Rule Is Opt-In

Spirit Tamer is completely independent from the Spirit item system. A campaign can use Spirit items, Spirit Tamer, both, or neither — they do not interact with each other.

PART 3

Items

Items

This section contains items specific to the Season 4: Frontier module. Core items are documented in Chapter 11 of the Core Rulebook. Items from other season modules are available at the GM's discretion.

Digivices

The D-Scanner replaces the standard Digivice for Frontier campaigns.

D-Scanner

Type: Digivice Cost: Loot only — cannot be purchased Effect: Must be equipped to digivolve your partner. Glows when wild or hostile Digimon are within 6 spaces. As a Free Action, scan one visible enemy to learn their Attribute and Element. As a Basic Action, perform a deep scan on one visible enemy to learn their Attribute, Element, and one combat stat of your choice. The D-Scanner supports digivolution up to Mega stage. Compatible with Spirit items — required to use any Legendary Spirit your Tamer carries.

Legendary Spirits

Legendary Spirits are rare items that unlock specific Hybrid Digimon digivolution paths. Each Spirit is tied to one Digimon form and must be held by the Tamer to use that form. Spirits are not consumed on use. See the Spirit Digivolution Reference for the full list.

All Legendary Spirits are Loot only. They cannot be purchased, traded for, or crafted.

Human Spirit of Fire

Type: Legendary Spirit Cost: Loot only — cannot be purchased Effect: Required to digivolve into Agnimon. The Spirit of Flame in its human form — quick, precise, and burning with intention.

Beast Spirit of Fire

Type: Legendary Spirit Cost: Loot only — cannot be purchased Effect: Required to digivolve into Vritramon. The raw power of flame given beast form — harder to control, impossible to ignore.

Human Spirit of Light

Type: Legendary Spirit Cost: Loot only — cannot be purchased Effect: Required to digivolve into Wolfmon. Light that cuts cleanly and without hesitation.

Beast Spirit of Light

Type: Legendary Spirit Cost: Loot only — cannot be purchased Effect: Required to digivolve into Garumon. The beast form of light — faster and more dangerous than anything that moves this quietly should be.

Human Spirit of Ice

Type: Legendary Spirit Cost: Loot only — cannot be purchased Effect: Required to digivolve into Chackmon. Cold that holds its shape under pressure.

Beast Spirit of Ice

Type: Legendary Spirit Cost: Loot only — cannot be purchased Effect: Required to digivolve into Blizzarmon. The avalanche given form — overwhelming and impossible to stop once it starts moving.

Human Spirit of Wind

Type: Legendary Spirit Cost: Loot only — cannot be purchased Effect: Required to digivolve into Fairimon. Wind that moves exactly where it intends to go.

Beast Spirit of Wind

Type: Legendary Spirit Cost: Loot only — cannot be purchased Effect: Required to digivolve into Shutumon. The storm that does not apologise for what it is.

Human Spirit of Thunder

Type: Legendary Spirit Cost: Loot only — cannot be purchased Effect: Required to digivolve into Blitzmon. Thunder with direction and purpose behind every strike.

Beast Spirit of Thunder

Type: Legendary Spirit Cost: Loot only — cannot be purchased Effect: Required to digivolve into Bolgmon. The charge that hits harder the more ground it covers.

Human Spirit of Darkness

Type: Legendary Spirit Cost: Loot only — cannot be purchased Effect: Required to digivolve into Löwemon. Darkness that chose a side. The purified form of what was once corrupted — still carrying the weight of what it used to be.

Beast Spirit of Darkness

Type: Legendary Spirit Cost: Loot only — cannot be purchased Effect: Required to digivolve into Kaiser Leomon. The strength that remains after everything else has been stripped away.

Corrupted Human Spirit of Darkness

Type: Legendary Spirit Cost: Loot only — cannot be purchased Effect: Required to digivolve into Duskmon. A Spirit warped by an outside will. GM-controlled in most campaigns — a player who uses this form is playing a character who does not yet know who they are.

Corrupted Beast Spirit of Darkness

Type: Legendary Spirit Cost: Loot only — cannot be purchased Effect: Required to digivolve into Velgrmon. Power without restraint or direction. The corrupted beast form is harder to control than almost anything in the Frontier.

Equipment

Using Equipment costs a Basic Action unless the item states otherwise.

Trailmon Pass

Type: Equipment Cost: Loot only — cannot be purchased Effect: As a Basic Action outside of combat, present this pass to board a Trailmon without negotiation or payment. Some restricted routes still require additional authorisation — the pass gets you on the train, not past every checkpoint.

Seraphimon

's Data Fragment Type: Equipment Cost: Loot only — cannot be purchased Effect: Once per session as a Basic Action, restore 6 Hope to all Tamers in the party. The data carries a warmth that feels older than anything in the Digital World.

Bokomon

's Notebook Type: Equipment Cost: Loot only — cannot be purchased Effect: As a Free Action, consult the notebook to gain +3 to your next Archive or Decode skill check this encounter. The notebook does not always have what you need. It always has something.

Clothing

Clothing effects are passive and always active while equipped. Switching outfits takes no meaningful time outside of combat and a Free Action during combat.

Frontier Goggles

Type: Clothing Cost: 25 Real World Money Effect: +2 to all Radar skill rolls while equipped. The goggles are not just protective equipment — they are a statement. Whoever wears them has decided they are leading. The Digital World tends to believe them.

Frontier Jacket

Type: Clothing Cost: 40 Real World Money Effect: +1 to all Ironclad skill rolls while equipped. Durable enough to survive the Digital World's terrain and temperature extremes. The scorch marks and frost patches it accumulates over time become a record of everywhere it has been.

D-Scanner Holster

Type: Clothing Cost: 30 Real World Money Effect: Your D-Scanner is always accessible. Equipping or drawing your D-Scanner costs no action. Additionally once per session you may use your D-Scanner as a Free Action instead of a Basic Action.

Supplies

Supplies are consumable items used up on use. Using a Supply costs a Basic Action unless stated otherwise.

Fractal Code Shard

Type: Supply Cost: 150 DD — rare Effect: Once per encounter as a Basic Action, restore 1 lost Default Stage to your partner Digimon. The shard is consumed on use. Fractal Code is the raw material of the Digital World — these shards carry enough of it to stabilise a collapsing digivolution.

Spirit Resonance Charm

Type: Supply Cost: 200 DD — rare Effect: Once as a Basic Action, attune this charm to one Legendary Spirit in your possession. Until the end of the session digivolving into the form linked to that Spirit costs 2 fewer Hope. The charm is consumed after the session ends.

Warrior

's Emblem Type: Supply Cost: 250 DD — rare Effect: Once as a Basic Action, use this emblem to grant your partner Digimon +3 to all attack rolls and +3 to all damage rolls until the end of the current encounter. The emblem crumbles after use. Fragments of the ancient Warrior Ten's power still resonate in the Digital World — sometimes they find their way into Tamer hands.

Digital Fog Grenade

Type: Supply Cost: 80 DD Effect: Once as a Basic Action, throw this item up to 4 spaces. All Digimon within 2 spaces of the landing point — ally and enemy alike — take -2 to all attack rolls until the end of the round. The fog disrupts targeting data. Throw carefully.

Tamer

's Smelling Salts Type: Supply Cost: 60 Real World Money / 150 DD Effect: Once as a Basic Action, use on a Tamer who has been reduced to 0 HP. That Tamer immediately returns to 1 HP and may act normally on their next turn. Can only be used on another Tamer's turn. A sharp, unpleasant smell that has saved more than one person from staying down.

Food

Eating a meal costs no action and happens naturally during rest or downtime. Bonus effects last for the current session and do not stack with the same meal eaten twice.

Digitamago

Type: Food Cost: Free — foraged / 40 DD at merchants Effect: Counts as a meal for both Tamers and Digimon. Prevents hunger. Restores 6 HP immediately. A small egg-shaped food found throughout the Digital World — common enough that most Tamers carry a few.

Trailmon Bento

Type: Food Cost: 35 Real World Money / 90 DD Effect: Counts as a meal for the Tamer. Prevents hunger. Restores 10 HP and grants +1 to all Core Drive and Reinforce skill rolls for the current session. Sold on Trailmon routes. The portions are generous and the food is surprisingly good for something served on a train running through a digital wilderness.

Flame Village Hot Pot

Type: Food Cost: 70 DD — Digital World vendors near Fire Terminal Effect: Counts as a meal for both Tamer and Digimon. Prevents hunger. Restores 12 HP to both the Tamer and their Digimon immediately. Served at a rolling boil by the Digimon who live near Fire Terminal. Tamers who have eaten it describe the warmth as lasting long after the meal is finished.

Frozen Berry Cluster

Type: Food Cost: Free — foraged in cold regions / 45 DD at merchants Effect: Counts as a meal for Digimon only. Prevents hunger. Restores 8 HP to the Digimon and grants them +1 to all defensive checks for the current session. Found growing in the colder regions of the Digital World. The frost on them never quite melts.

DIGIMON STATISTICS & FOUNDRY VTT DEVELOPMENT

Lewis

Created a large portion of the Digimon species stat blocks, built and maintains the Foundry VTT JSON files, and contributed extensively to the game's Digimon data infrastructure. Also a playtester.

PLAYTESTERS

punisher355.mo · Lewis · Dark Dragon · Leonizard

Thank you for your time, your feedback, and your willingness to break things so they could be built better.

FAN PROJECT DISCLAIMER

Tamer's Bond is an unofficial fan-made tabletop RPG. Digimon and all related characters, names, and properties are the intellectual property of Bandai Namco Entertainment Inc. and Toei Animation. This project is not affiliated with, endorsed by, or connected to Bandai Namco, Toei Animation, or any official Digimon licensees. This is a free, non-commercial fan work. No profit is made and it is distributed at no cost.

This document is a playtest draft. Numbers are subject to change after testing.
